EDITOR'S LETTER Get your varn and needles ready. We've got ideas to keep you knitting all winter long!

Why do you knit? I was recently knitting and a non-knitter, non-crafty person asked me why I was spending time knitting. Well, there are so many reasons ... the feel of the varn ... the fascination with seeing what comes off the needles ... the warm, fuzzy feeling when a recipient of a knitted gift really appreciates it. But most of all.

This winter issue is filled with many new reasons to knit. Here are some of the not-to-miss highlights:

Feed a craving for cables: Direct Cable Vest, page 18; Cables & Bobbles Beret, page 32; Send a Little Cable, page 36.

it's just plain fun!

Master the chevron: Skill Booster-Tripping the Chevron Fantastic, page 40; Chevron Fantastic Afghan, page 41.

Smaller gift projects: Warm Stripings, page 28; Impressive Easy Miters Scarf, page 38; Arm Cozies, page 66.

You can bet I won't be making anything for the person that doesn't understand why I would knit. My new resolution is to knit for those who love hand knits, even if they could have made it themselves!

CREATIVE LETTERS

Our readers are looking to knit for those who need comfort and have special requests.

Made With Love!

I am organizing a group of knitters that wants to get together and knit. Do you have any ideas on projects we could do? Laura P., you eman.

When you are knitting and socializing with others, it is not the best time to knit something that takes a lot of thought and

counting. I suggest you check out the new site www.FriendshipShawl.org and knit a simple shawl for those you love or who need a hug. Shawls can be given to a friend or family member to commemorate a special event, give moral support during a difficult time or to simply celebrate friendship. A friendship shawl can also be made for a stranger and donated through Warm Up America (www.warm.upamerica. com) to nursing homes, hospitals and shelters. When someone wraps herself in it, she will think of how much someone cares. There are also crochet patterns on the site, so you can include crocheters in your group, too. -Editor

Ripple Afghan Found

I used to crochet a lot and loved making ripple-style crochet afghans. Now I enjoy knitting (easier on my achy hands) and would like to try knitting an afghan with a ripple pattern. Can you tell me where to find one?

Mary S., VIA E-MAIL

You'll want to be sure and see the Chevron Fautastic afghan on page 41 of this issue Chevron is just another name for "ripple." Designer Beth Whiteside included instructions for both a baby size and a larger 45 x 56-inch throw. There are six different chevrons that are interesting to knit. Make sure to read the accompanying Skill Booster article, Tripping the Chevrone Fautastic.—Editor

Soap Star to Knit Star

I heard that one of the actresses on the One Life to Live soap opera has a knitting television show. Can you tell me anything about that?

Lenore F., WAR-MAIL

set of Knit and Crochet Today.

Kassie DePaiva, who plays Blair on ABC-TV's day-time drama, One Life to Live, is also a regular on the new PBS show, Knit and Crochet Today. She is a beginner knitter that is having fun learning, along

with the viewers, from the many guest authors and designers. The show has been underwritten by Coats & Clark, the manufacturer of favorite yarns including Moda Dea and Red Heart. In order to request Knit and Crochet Today from your local PBS network and programming executive, go to wown pbs. org/station/inder/station/inder/relocalize. Intul Once you enter your ZIP code it will tell you the phone number of the station in your market, and you can call directly.—Editor

Satin Silver Floorstanding Lamp

From Daylight™

As eves age, good lighting becomes necessary for all types of needlework, reading and crossword solving. Davlight's Satin Silver lamps are now available in floor or table models with stunning styling and soft, true low-heat bulbs that really do reduce eyestrain! Daylight seems to have a great understanding of knitters' needs. You'll appreciate being able to adjust the height to your ideal working position. The craft tray on the Ultimate model has a dust cover to keep small notions clean and at hand. The rimless magnifier works clearly when reading glasses don't have quite enough power and the chart/pattern holder is a convenient accessory for clipping instructions at reading level. All of the accessories are removable if you wish to have a contemporary lamp without the extras.

For more information, store locations and online ordering visit their website at www.daylightcompany.com.

Earmuff Kits

From All Ears™

Keep Jack Frost from nipping at your ears with knit earmuffs! These kits include all the findings needed to create unisex, one-size-fits-all ear warmers in just a tew hours—even if you are a knitter with limited experience. How many people on your gift list can you knock off with this great idea?

All Ears Earmuff Kits are sold at select yarn shops and come in a see-through, zippered project bag that keeps all supplies handy (\$46 and up depending

on yarn included).

For more information, e-mail allearsearmuffs@aol.com or phone

The Knit Lite™ Needles

If you'd like to shed a little extra light on your stitches, the Knit Lite needles are just the ticket. In places where there is low lighting or when working with dark yarns, these needles have an on/off switch to light up the clear tips. Knit Lites come in 9-inch and 13/14-inch lengths in needle sizes 6 to 15 (\$14.95-\$15.95). Replacement batteries are available (\$2.48-33.49).

Find them at yarn and craft stores or online at www.clover-usa.com.

Handmade Clay Fob for Scissors

From Creative Impressions in Clay

Tari Sasser is the clever designer of an enthralling new collection of scissor fobs. Each one is a hand-painted work of art that is a treat to keep in with your knitting tool kit. It's a neat way to keep the points of your scissors protected and keep fingers protected when reaching in for your scissors.

Creative Impressions in Clay are available at select local yarn shops or online at www.claybuttons.com.

Katte Knits Again

By Kaffe Fassett (\$35, Potter Craft, 2007, 144 pages)

It's been more than 10 years since we've had a knitting book from artist Kaffe Fassett, and that's too long. Thankfully, Kaffe Knits Again is here, updating some of his most popular designs with new color palettes and varns. Those familiar with Fassett's work will recognize his signature look, drawn from ethnic prints, the colors of nature, and anything else in sight. It's hard to believe that so many different colors could exist, or that they could be combined in such amazing and successful ways. I find it difficult to write about color, and never more so than when talking about Kaffe Fassett designs-they must be seen to be appreciated.

The 24 projects in this book are shawls. sweaters, cushions and throws. There are plenty of squarish projects, making it easy for newer knitters to concentrate on the intarsia techniques required for the colorful knitting. Prepare to be inspired!

SOCKS

Lion Brand Yarn's Just Socks and Just Gifts

Edited by Shannon Okey (\$12, Potter Craft, 2007, 112 pages)

The latest in a long-running series of pattern books from Lion Brand, these little volumes are the perfect take-along size, fitting right into your knitting bag and

offering a variety of small projects for knitters and crocheters.

Just Socks presents 30 designs for men, women and children, from basic easy-to-knit

versions through more complex Fair isle designs. Lespecially like the shaped-arch socks, Just Gifts is an eclectic mix. There's the expected beyone of mittens, bags and washcloths, but you'll also find beaded ankle bracelets, coffee-cup cozles. dog sweaters and other, more unusual items. All the projects use an assortment of widely available Lion Brand yarns. At \$12 each, these books are a good value for the knitter looking for easy gift-giving or sock-knitting.

Tripping the Chevron Fantastic

By strategically placing increases and decreases you can make interesting chevron patterns!

Bias revisited

Bias or diagonal fabrics can be created by adding a stitch at one end of the work and taking a stitch away at the other. Adding at the beginning and removing at the end of all right-side rows makes the work stant to the right, while the converse makes fabric which stants to the left (see Photo A). What happens if we set these two strips side by side with their decrease ends together? Now the columns of stitches travel diagonally across the work, away from the increases on the ends and toward the decreases in the center, forming a chevron shape (see Photo B). If we set another pair of strips next to these, increases to increases, we'd have a most interesting fabric whose lines and bottom edges zigzag horizontally.

This is the basic structure of chevron patterns. Double decreases and their compensating double increases are stacked vertically, separated from each other by some number of plain stitches.

The plain stitches appear to travel toward the decreases, which of course is where they are "eaten up" by those double decreases. New plain stitches are

continually created at the line of stacked increases, and so the total stitch count remains constant.

Photo A

Photo B

Decrease/

increase type
The basic recipe for
a Stockinette stitch
chevron pattern
looks like this:

Row 1 (RS): 4 Knit 2 or 3 sts, double inc, knit 2 or 3 sts, double dec; rep from 4 . Row 2 (WS): Purl all sts.

The appearance of the fabric can be subtly altered by your choice of increases and decreases. Photo C shows the stitch pattern referred to as Chevron Fantistic, wherein the double decrease is an sok next to a k2tog, and stitches are added by knitting into the front and back of two sequential stitches. Three stitches separate the stacked shaping units. Notice how at the increase line there appears to be a stitch between two purl bumps, a

Photo C

characteristic of this increase. Achieving this appearance requires the first increase be worked into the third stitch on the right of the centerline, as well as into the center stitch; three plain stitches are worked to the left of the increase line. Making our recipe specific means Row 1 would be written.

ROW 1 (RS): "K2tog, knit 2 sts, inc in next 2 sts, knit 3 sts, ssk, rep from ". Of course any double decrease and increase could be substituted as long as the nature of those shaping units were taken into account. For example, substituting a true double decrease for the pair of singles means considering what happens to your stitch count when three instead of four turn into two

The accompanying Chevron Fantastic Throw uses six versions of the basic chevron pattern, each with a different combination of increases and decreases. Separating them with six rows of garter stitch further emphasizes the undulating nature of chevron patterns. Within this one family of stitch patterns exists still more possibilities for variation. Begin with the basic rec ipe above, then make it your own by experimenting #

Flying Needles:

e Story of Lisa Gentry

If you want to make Lisa Gentry smile, invite her to look into a closetful of yarn. One of her happiest childhood memories is of doing exactly that. She was raised in Germany at a Catholic church school, where she and other children lived and were cared for. The nuns who taught her to knit recognized that she wans it the typical child, Initing simply because it was required and expected of all girls. When they opened the yarn closet and let her choose skeins for her next creation they were opening the door to Lisa's own special world of color and possibilities—the door to her future.

Lisa kmit as a child because she loved it. She kmit fasts, she kmit all the time, and she designed her own projects right from the start. She would simply visualize something in her head and watch as it took shape on her needles. She remembers fondly a blue and yellow striped sweater she kmit for a little boy at the school; she was 12 and he was 3. Scarves, pillows, sweaters, dresses, jacketss—whatever Lisa made appeared so fast that the muss thought she was disobeying the rules and knitting after lights out at night.

As an adult, Lisa still knits because she loves it. She continues to design her own projects, and she's even faster than she was as a little girl. Her needles fly at the rate of two stitches per second when she's working in garter stitch. She can complete 209 stockinette stitches in three minutes. She holds the Guimess Book of World Record's title as the World's Fastest Crocheter and is training for a try at the title of World's Fastest Knitter. Lisa is so fast that she can complete a project in the time it takes most people to knit halfway up a single sleeve. One friend remarked

Lisa Gentry

that it takes her longer to pick yarn and a pattern, and find her needles than it takes Lisa to complete a pair of socks.

As a young woman, Lisa owned a yam shop. She ran it from her home in Germany, selling to customers who liked her ideas and the original designs she shared—and her fair prices. When Lisa came to the United States as a namy she packed the yarns from her store into boxes and shipped them here. She langhed when she revealed that she finally gave the last few skeins away in April of 2007, after holding onto them for many years. Like all of us, she likes to have plenty of stak?

Lisa and her husband live in Louisiana. where she spends her days in a pleasurable mix of family visits, gardening, household chores-and hours and hours of knitting. Even with constant use. Lisa doesn't get pain in her hands and she doesn't do anything special to take care of them. other than a bit of skin lotion. Perhaps knitting so much keeps them in good shape, or perhaps it's just lucky genes, but she has no intention of slowing down. In fact, the opposite may be true: She's busily inventing new techniques and working on a series of books, assignments for magazines, and knitting for friends. neighbors and family. With a new terrier puppy, who knows—designs for pets may soon follow. Be on the lookout for her book I Can't Believe I'm Chain Knitting in which the technique of chain knitting that Lisa created will be introduced.

Although Lisa is confident about her abilities, she's modest and quick to credit others who have helped her along the way, including the nuns who were her first teachers. She says it was Kathlear Sams at Coats & Glark who "discovered" her, believed in her, and was the first to hire her as a destigner. Her husband gets the highest praise, and Lisa talks about him with pride, love and admiration. He built their house, he travels with her; he brings her coffee in bed each morning. When she's not pondering the possibilities of a close-ful of yarn, she can be found by the pond feeding the wild ducks.

Lisa has knit together a good life, one that allows her to reach a broad audience with her creativity, and at the same time, allows her to balance her days in ways that are personally fulfilling—something she hopes can be true for a long time to come. ■

When Do You Use Double-Pointed Needles Rather Than Circular Needles?

The number of stitches on the needle determines whether to use double-pointed needles or change to a circular needle.

When working in continuous rounds on a circular needle the stitches must fit comfortably around the entire needle. If there are too few stitches, then the piece being knit is pulled out of shape in order to try and make the stitches come together. Knitting is very awkward, and stitches need constant shifting. When there are not enough stitches to fit on a circular needle either a smaller circular needle is needed or double-pointed needles are used.

On the other hand, if there are too many stitches on double-pointed needles, then the stitches bunch together and are too close to the ends of the needles. In this case it is time to switch from doublepointed needles to a circular needle. If there are too many stitches on a circular needle, you need to switch to a circular needle, you need to switch to a circular needle with a longer cable area.

The spa cloth on next page calls for a couple of needle changes and helps give you a feel for how the stitches should fit on the needles.

Because this cloth is worked in rounds from the center to the edges, there are only four stitches at the start of the project. These stitches are all cast on to one needle. After working the first round the increased number of stitches are divided onto two additional double-pointed needles. It is most helpful to place a small pin or loop of yarn in the piece to indicate the beginning of the round. When working in rounds, it is easy to keep going and forget where you started.

Working on double-pointed needles seems a little awkward at first, as there aren't many stitches on each needle, and there is constant movement from one needle to the next. Inst keep going in a circle from one needle to the next. It gets easier with each round.

Rnd 4 of Spa Cloth

On each row the number of stitches continues to increase. An additional double-pointed needle is added on Round 8, to comfortably divide the stitches onto four double-pointed needles. This makes it easy to visualize the pattern as it is repeated on each of the four needles.

Rnd 10 of Spa Cloth

At about Round 23, the needles become full of stitches. This means it is time to change to a circular needle to avoid dropping stitches. As you knit the stitches from each double pointed needle onto the circular needle, add a marker each time you come to the end of a needle to separate the pattern repeats. All the stitches are now on one needle, and you continue to work in rounds to complete your cloth.

Happy knitting in circles!

Zipper How-To

Zippers can easily be added to a knit garment. Different weights of garments need differentweight zippers. Heavy separating zippers are used on lackets and cardigans, while regular dressmaking zippers are used for neck or skirt openings.

The zipper should be sewn in by hand using a backstitch through both the zipper and knit piece.

To add a zipper, place the knit edges over the zipper so the zipper teeth are covered and the seam is centered over the zipper From the right side, pin in place

On the wrong side tack the edges of the zipper to the garment.

Turn to the right side and backstitch the zipper in place.

Kitchener Stitch

This method of weaving with two needles is used for the toes of socks and flat seams. To weave the edges together and form an unbroken line of stockinette stitch, divide all stitches eventy onto two knitting needles-one behind the other Thread varn into tapestry needle. Hold needles with wrong sides together and work from right to left as follows:

Step 1:

Insert tapestry needle into first stitch on front needle as to purl.

Draw yarn through stitch, leaving stitch on knitting needle.

Step 2:

Insert tapestry needle into the first stitch on the back needle

as to purl. Draw yarn through stitch and slip stitch off knitting needle.

Step 3:

Insert tapestry needle into the next stitch on same (back) needle as to knit.

leaving stitch on knitting needle.

Step 4:

Insert tapestry needle into the first stitch on the front needle

as to knit. Draw

yarn through stitch and slip stitch off knitting needle.

Step 5:

Insert tapestry needle into the next stitch on same (front)

needle as to puri. Draw yarn through stitch. leaving stitch on knitting needle.

Repeat Steps 2 through 5 until one stitch is left on each needle. Then repeat Steps 2 and 4. Fasten off, Woven stitches should be the same size as adjacent knitted stitches.

Fringe

Cut a piece of card board half as long as specifled in instructions for length of strands plus 12 Inch for trimming, Wind varn loosely and evenly around cardboard. When cardboard is filled, cut varn across one end. Do this several times, then begin fringing. Wind additional strands as necessary.

Single-Knot Fringe

Hold specified number of strands for one knot together, fold in half. Hold project to be fringed with right side facing you. Use crochet hook to draw folded end through space or stitch indicated from right to wrong side.

Pull loose ends through folded section. Draw knot up firmly. Space knots as indicated in pattern instructions.

Working Short Rows

Wrap/Turn (w/t)

This method of working the shoulder avoids holes or a staggered boundoff edge.

Work as follows:

*Work to indicated turning point, take yarn to right side of rabric (in front on knit row, in back on puri row), silp next stitch purlwise, take yarn to wrong side of rabric (Photo A).

Turn work. Slip stitch, puriwise to right needle (Photo B).

Repeat from * until short rows are completed.

When all wraps are completed, work across row using the following method to work wrap and stitch together.

On knit side, insert tip of right needle into wrap, then into stitch and knit them together (Photo C).

On puri skie, insert tip of right needle into wrap from right side, lift it onto left needle, then puri stitch and wrap together.

3-Needle Bind-Off

Use this technique for seaming two edges together, such as when joining a shoulder seam. Hold the edge stitches on two separate needles with right sides together.

With a third needle, knit together a stitch from the front needle with one from the back.

Repeat, knitting a stitch from the front needle with one from the back needle once more.

Slip the first stitch over the second.

Repeat knitting, a front and back pair of stitches together, then bind one off.

Now knitters have more Options.

Harmony Wood Needles

Many knitting situations benefit from the unique quality of wood needles. The polished surface of our Harmony needles have more grip than metal making it easier to control slick fibers like mohairandangora. The extra sharp points are a boon for lace knitters. These colorful needles are strengthened with resin so that even the smaller sizes are strong and resilient. The interchangeable tips have the same incredibly smooth join you love about our nickel-plated versions. Now you can have the best of both worlds.

We've included the basics here for your reference.

Cast On

Leaving an end about an inch long for each stitch to be cast on, make a slip knot on the right needle.

Place the thumb and index finger of your left hand between the yarn ends with the long varn end over your thumb and the strand from the skein over your index finger. Close your other fingers over the strands to hold them against your palm. Spread your thumb and Index

fingers apart and draw the varn into a "V."

Place the needle in front of the strand around your th umb and bring it underneath this strand. Carry the needle over and under the strand on your Index finger.

Draw through loop on thumb. Drop the loop from your thumb and draw up the strand to form a stitch on the needle.

Repeat until you have cast on the number of stitches indicated in the pattern. Remember to count the beginning slip knot as a stitch.

Pattern Notes

The wandering cable pat is formed by a series of 6 movements of sts within a K2, P2 RIb: (1) Parallel k2's are brought tog by working T3 cables (crossing 2 knit sts over 1 puri st), (2) the 4 knit sts form a basic

cable, (3) the k2's move back away from each other with the use of T3 cables. (4) the k2's are brought back for (5) another cable twist, and finally (6) are moved away from one another with the final T3 cables For each successive set of cables, the neighboring ribs take their turn. It's like a

dance of sts. and the outer 6 rlb sts rem constant throughout to form a border for the scart

Charts for Cable pats A and B are provided for those preferring to work from charts

Odd-numbered (RS) rows are read from right to left on chart and even-numbered (WS) rows are read from left to right.

Check the felting progress every minute after 6 minutes; depending upon your was her, it will take 6-8 minutes of agitation to felt the desired amount. When you're pleased with the amount of felting. (If you still see the sts you might want to agitate a bit longer). remove the pieces and drain wash water from machine; gently squeeze water from piece.

FIII washer to the same water level with cold water. Place pieces into washer and rinse/agitate for another minute: the cold water will make them felt just a bit more.

Set machine to drain, then run spin cycle for approximately 30 seconds (creases caused by over-spinning are difficult to remove from the finished piece). Remove pieces, gently stretching into

shape. If needed: place on a towel or sweater rack to dry Place a small towel inside purse to help to keep its shape while drying.

Twist curis a few times, if desired. Drying process may take up to 2 days. depending on humidity. When completely dry, steam lightly, if necessary to complete shaping.

Assembly

Turn upper edge of purse to RS, forming a cuff. Sew straps to cuff on each side. Referring to photo, sew beads to cen-

ter of rose.

Sew rose to center top edge of purse cuff; sew curls around rose. ■
